Intune Suite ja M365 E3/E5

1. Which Intune related capabilities are included in each plan?

Here is a summary of the Microsoft 365 plan changes related to Microsoft Intune:

Microsoft 365 plans	**Included capabilities**
Microsoft Enterprise Mobility and Security E3 (EMS E3) (*included in Microsoft 365 E3*)	· Intune Remote Help · Intune Advanced Analytics · Intune Plan 2
Microsoft 365 E5	**All Microsoft 365 E3** features plus: · Intune Endpoint Privilege Management · Microsoft Cloud PKI · Intune Enterprise App Management
Microsoft 365 E5	· Microsoft Security Copilot

Note: *New capabilities will begin to roll out CY26 Q3. Customers will receive a 30-day notice in Message Center before the update becomes available in their tenant.*

Microsoft 365 adds advanced Microsoft Intune solutions at scale - Microsoft Intune Blog

Perinteinen inventaario

- Oletuksena päällä
- Päivittyy 7 pv välein

Operating system

Operating system	Windows
Operating system version	10.0.26200.7392
Operating system language	en-US
Operating system edition	Enterprise
Operating system SKU	Windows 10/11 Enterprise (4)
Security patch level	

Subscription

Status	Unknown

Storage

Total storage space	921.59 GB
Free storage space	393.79 GB
Total physical memory	32.00 GB

System enclosure

IMEI	
MEID	
Manufacturer	Intel(R) Client Systems
Model	NUC8i7BEH
Processor Architecture	x64
Phone number	
TPM Version	2.0, 0, 1.38
TPM manufacturer ID	INTC
TPM manufacturer version	403.1.0.0
System management BIOS version	BECFL357.86A.0097.2024.0221.1015

Network details

Subscriber carrier	
Cellular technology	
Wi-Fi MAC	380025762D89
Ethernet MAC	1C697A0CBAD2
ICCID	
Wi-Fi IPv4 address	
Wi-Fi subnet ID	
Wired IPv4 address	192.168.50.67, 172.24.16.1

Network service

Enrolled date	1/2/2023, 9:29:08 AM
Last contact	1/5/2026, 3:47:38 AM

Perinteinen inventaario

- Edut
  - Mukavasti integroitu Intune-portaaliin (uudet sarakkeet/export)
  - Vapaa levytila! ☺
  - Käytettävissä Graph-kyselyjen avulla
  - Voidaan kytkeä Log analyticsiin halutessa (Tenant admin → Diagnostic setting → Devices)
- Puutteet
  - Tiedot päivittyy hitaasti
  - Microsoftin hankala lisätä uusia kerättäviä tietoja
  - Pari ärsyttävää puutetta
    - Uudet inventaariotiedot puuttuvat Export/Log analytics sync
      - Export missing: Wired IPv4 Address, OS Language/SKU
      - Log analytics: enemmän puutteita... ☹

Discovered Apps

- Päivittyy 7 pv välein
- Hyödyntää EnterpriseModernAppManagement CSP:tä
- Intune Management Extension löytää Win32 apps joka 24h
  - Win32AppInventory.log

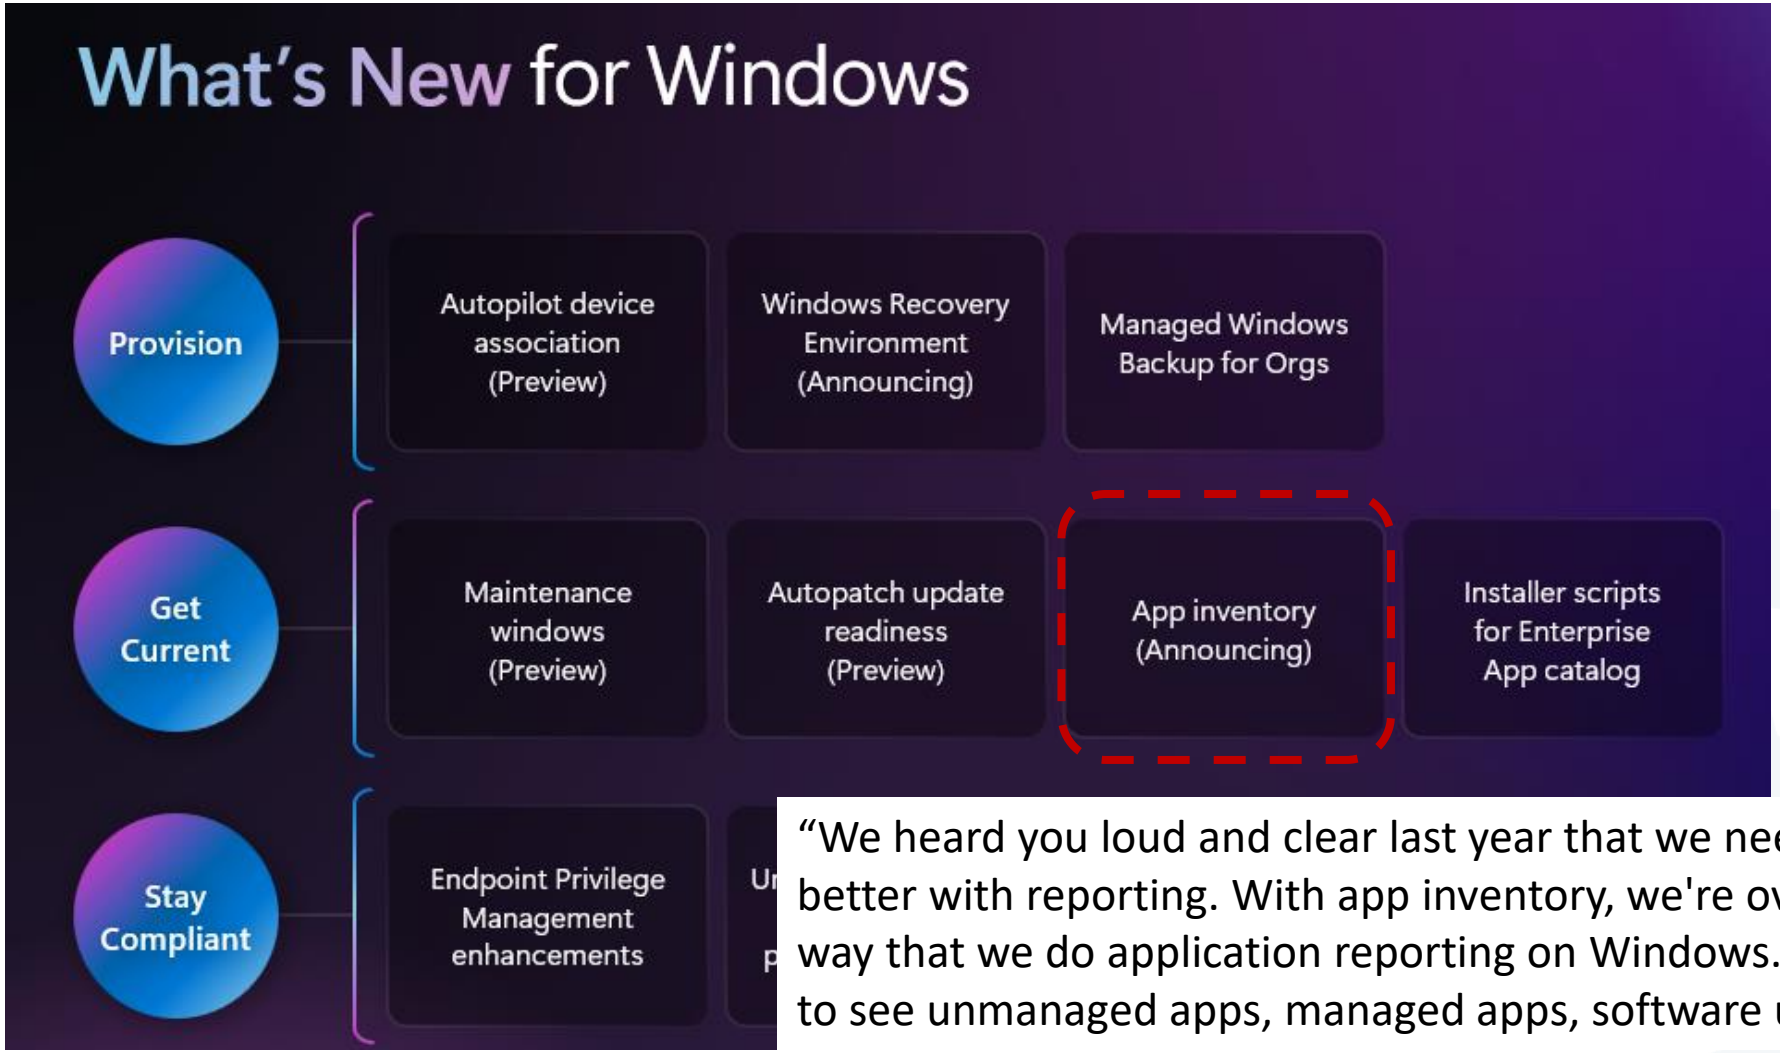
Sovellusinventaario (Ignite 2025)



"We heard you loud and clear last year that we needed to do better with reporting. With app inventory, we're overhauling the way that we do application reporting on Windows. So you're going to see unmanaged apps, managed apps, software usage."

Enhanced inventory

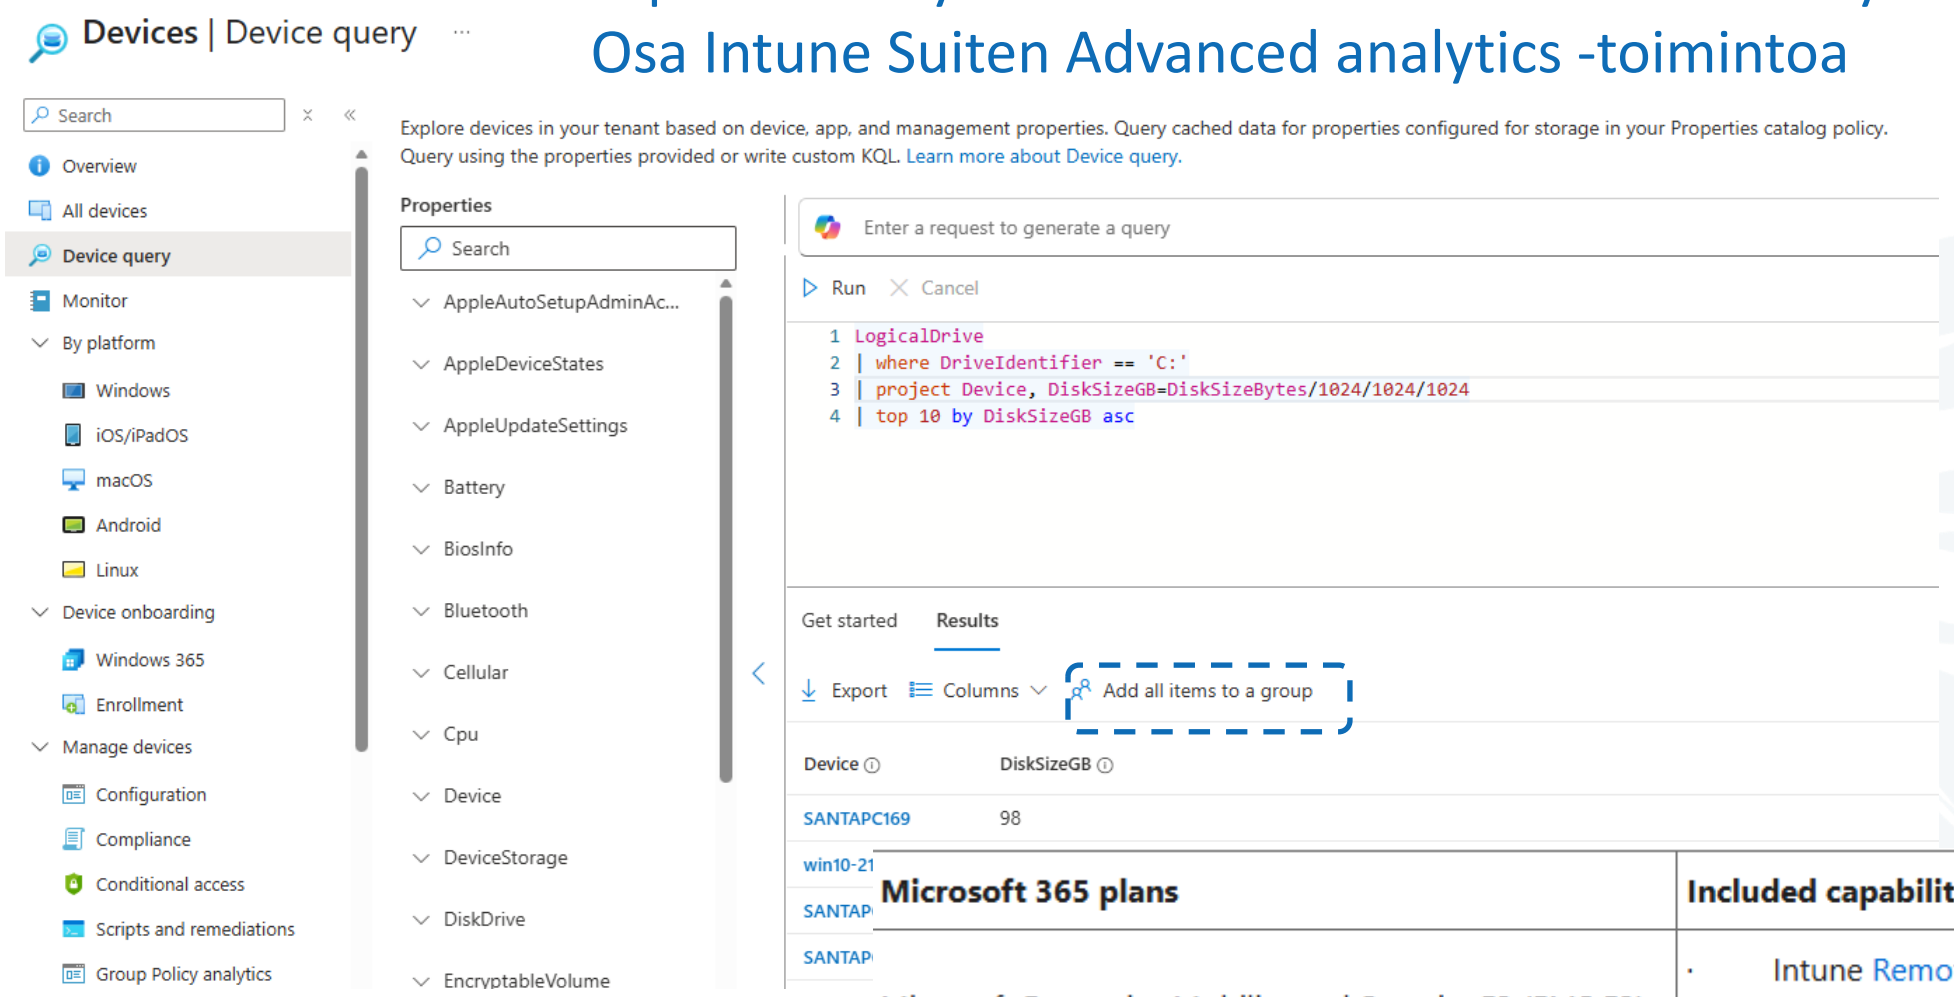
Multi-device query

Tapa keskitetysti hakea tietoa enhanced inventorysta

Osa Intune Suiten Advanced analytics -toimintoa



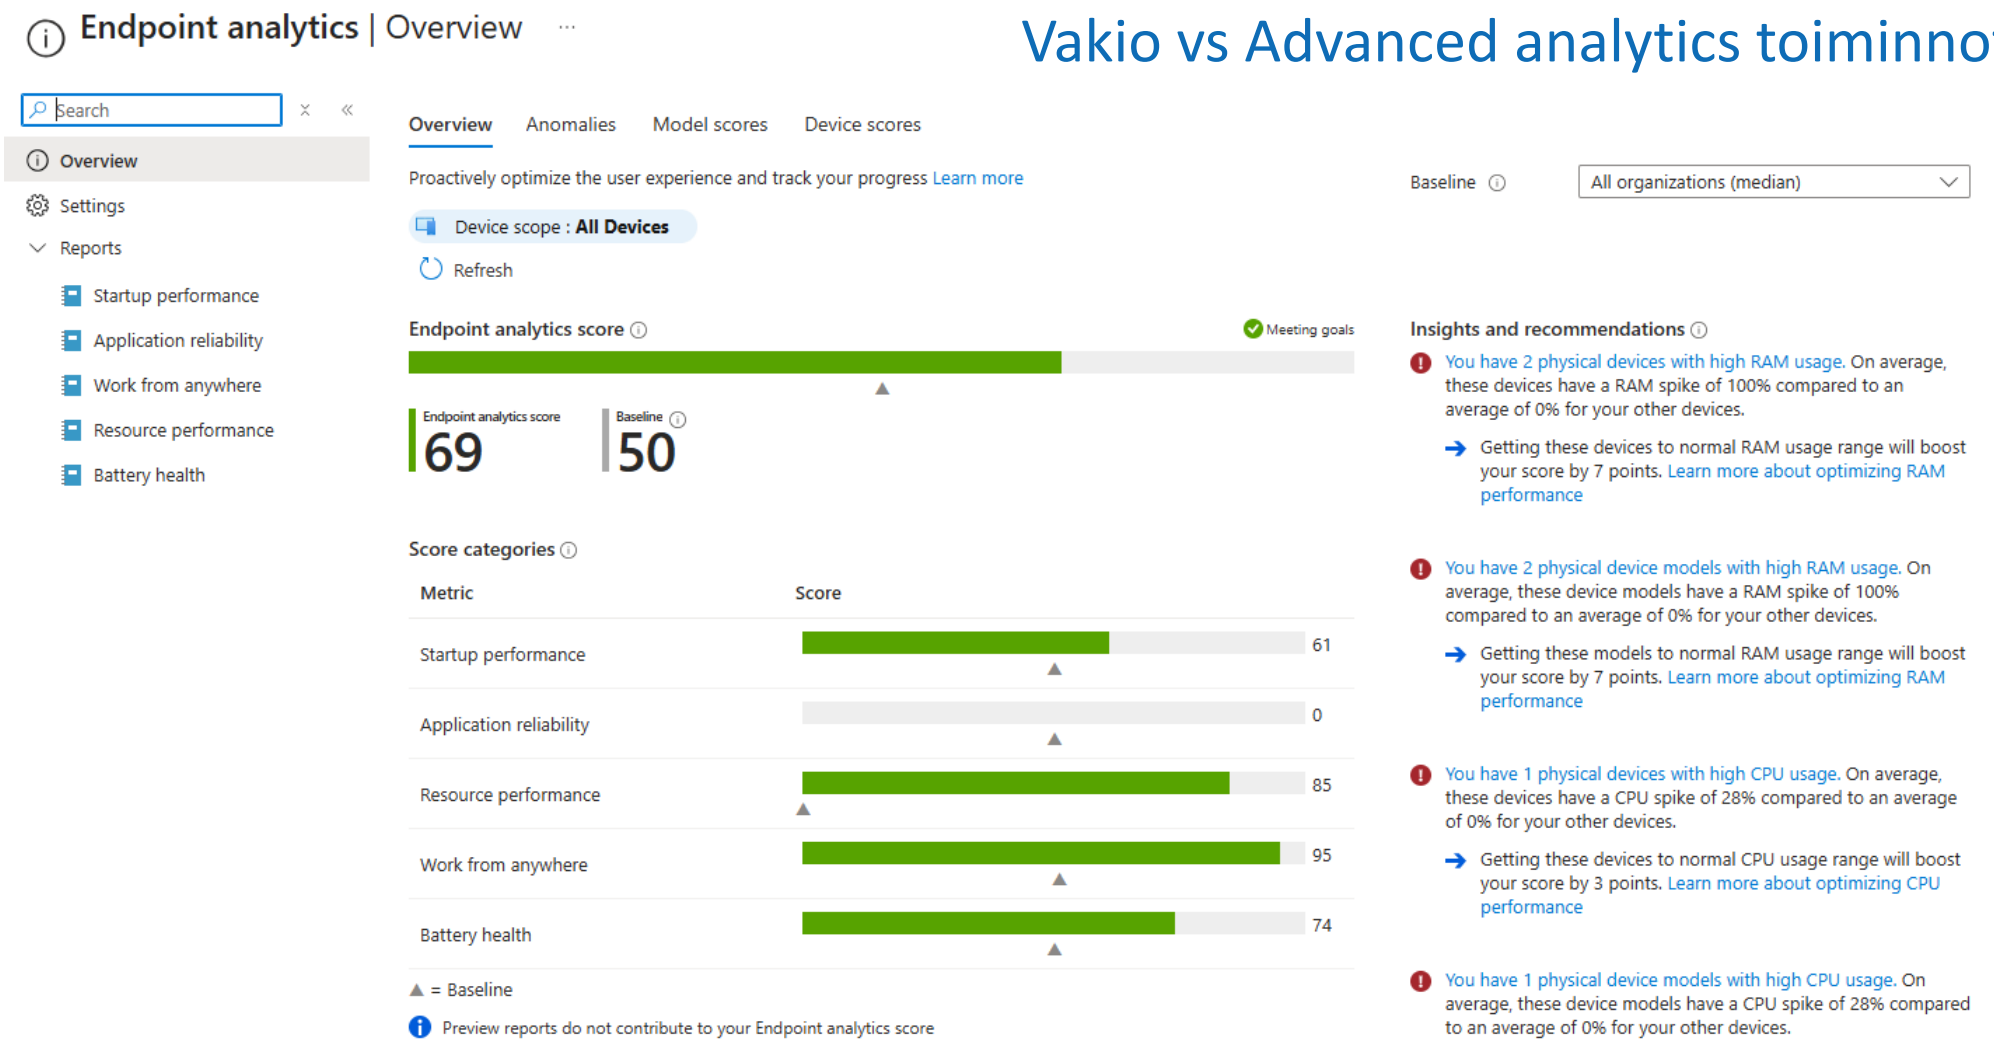
Microsoft 365 plans	Included capabilities
Microsoft Enterprise Mobility and Security E3 (EMS E3) *(included in Microsoft 365 E3)*	· Intune Remote Help · Intune Advanced Analytics · Intune Plan 2

Enhanced inventory

- Edut
  - Käyttiksestä riippumaton arkkitehtuuri
  - Microsoftille helpompi lisätä uusia attribuutteja
  - Multi-device query hieno työkalu hakea tietoja
- Puutteet
  - Vain “staattista” tietoa
  - Ei Graph-tukea
  - Vaatii Advanced analyticsin multi-device query
  - Onneksi Advanced analytics tulossa M365 E3 lisenssin mukana

Endpoint analytics (EA)

Suorituskyky/ohjelmistotietoja
Muista ottaa käyttöön!
Vakio vs Advanced analytics toiminnot



EA vakio/laajennetut toiminnot

- Ilmaiset ominaisuudet
  - Buutti/kirjautumisnopeus kone/mallikohtaisesti
  - Buutit (blue screen!)
  - Sovellusten luotettavuus ja käyttö
  - Work from anywhere
- Maksulliset
  - Osa Advanced analytics
  - CPU/RAM käyttö
  - Akun hyvinvointi
  - Device timeline
  - Poikkeamat

Endpoint analytics

- Edut
  - Hyviä suorituskyky/luotettavuustietoja
  - Ilmainen
- Puutteet
  - Pitää muistaa ottaa käyttöön
  - “Vain katsomalla saat tietoa”
  - Osa ominaisuuksista vaatii Advanced analyticsin

Explorer

Joukko hakuja. Vaatii SCU:ita, vaikka ei käytä niitä (vielä?)

Query your data

Start typing to search your Intune data, or see below for examples

Find the Intune data you're looking for

Search your tenant for info about devices, users, apps, compliance, or updates. Copilot can also help you understand what kind of questions you can ask and how to ask them.

Show examples for: All categories

- All categories
- Advanced Analytics
- App Configuration
- App Protection
- Apps
- Audit logs
- Autopilot
- Compliance
- Device Configuration
- Device Updates
- Devices
- Endpoint Privilege Management
- Groups
- Roles

Apps
Get the top Number Of Apps apps with the highest number of App Install Status on Managed App Platform

Apps
Get all managed app install results for user /User

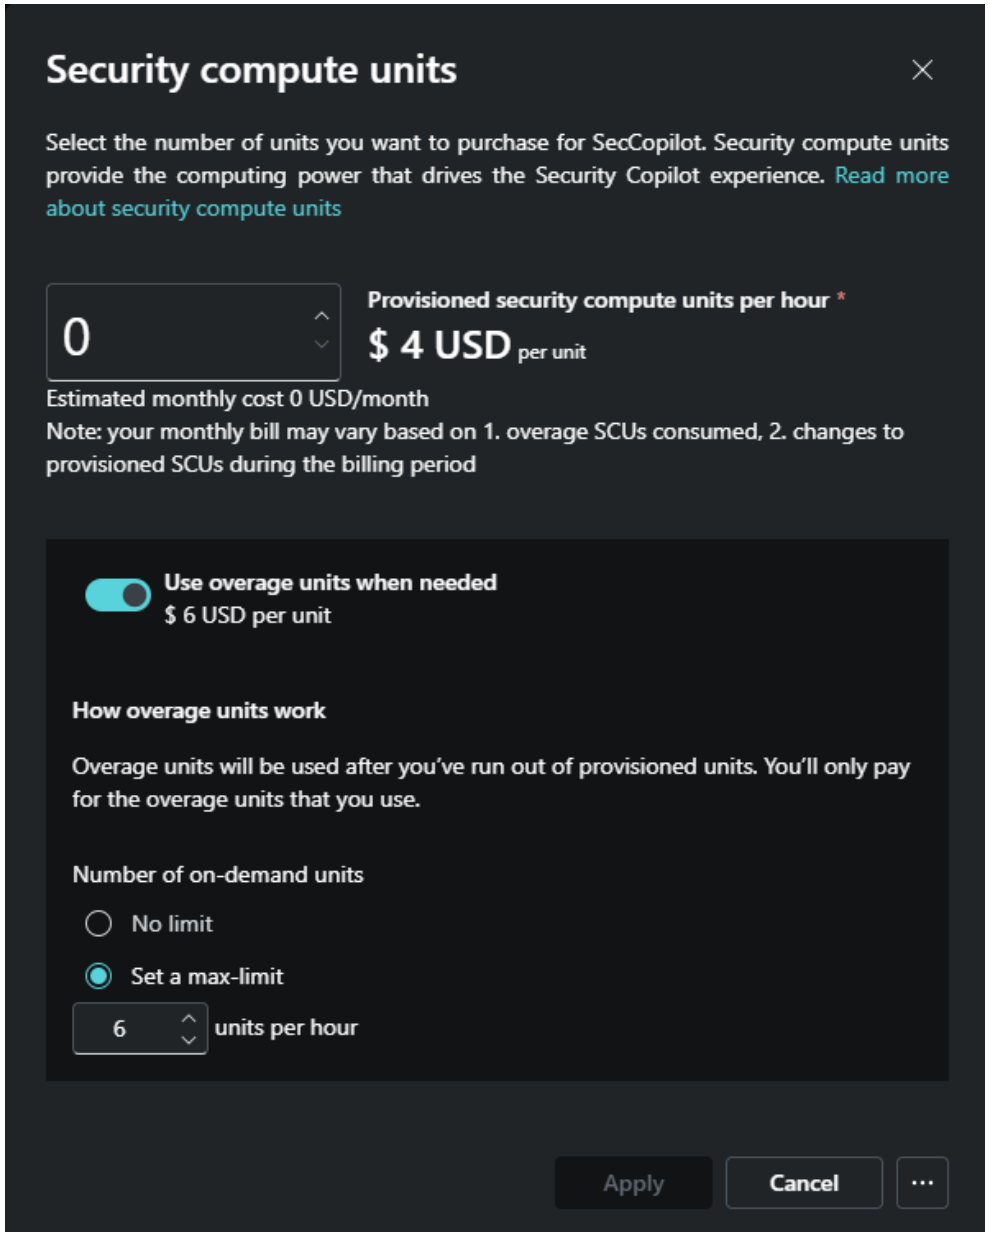
Compliance
Get Platform devices that are Compliance state due to the compliance setting Compliance Setting Name

Apps
Get the current deployment status of /Managed App across all devices

Endpoint Privilege Management
Get managed vs unmanaged elevation counts for last month

Endpoint Privilege Management
Get the top 10 most frequently elevated applications

Secure Compute Unit Exploreria varten



Explorer

Explore data in your tenant based on device, app, and management properties. Learn more about exploring data, including what's coming soon

Query your data Get Windows devices that have discovered app with name containing chrome installed

Copilot Summary

AI-generated content may be incorrect. Check it for accuracy.

Overall Summary

There are 6 items in the results list. This query retrieves information about devices on specified platforms that have discovered applications with names containing a particular string. DeviceName, DeviceId, and EntraDeviceId. This helps administrators identify which devices have specific applications installed across different platforms in their Intune environment.

Other Useful Queries

SANTAPC233	Google Chrome	Windows	Google LLC	142.0.7444.59
SANTAPC499	Google Chrome	Windows	Google LLC	142.0.7444.176

Explorer

- Edut
  - Paljon valmiita hakuja
  - Microsoft lisää aktiivisesti uusia
  - Vastausjoukon toiminnot tulossa (Add to group)
- Puutteet
  - Vaatii SCU:ita, vaikka ei käytä
  - Jotkut haut turhan teknisiä
  - Odotellaan lisää hakuja...

Microsoft Defender for Endpoint

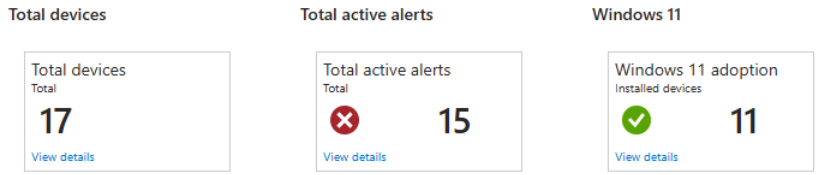
- Kerää paljon inventointitietoa koneilta
- Advanced hunting:n avulla voidaan helposti saada sovellusten asennustietoja

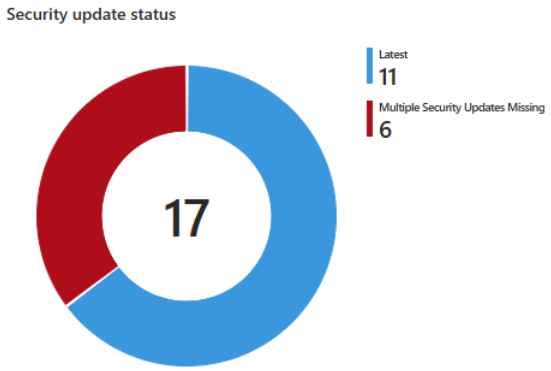
```
// Devices with Google Chrome
DeviceInfo
| join (DeviceTvmSoftwareInventory
    | where SoftwareName has 'Chrome') on DeviceId
| project DeviceName, OSDistribution, OSVersionInfo, SoftwareName, SoftwareVersion
| order by DeviceName asc
```

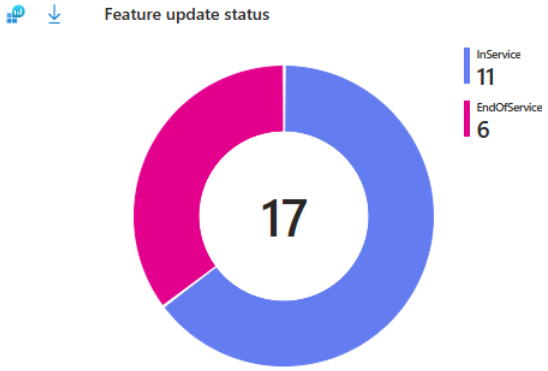
```
// Windows Workstations without Google Chrome
let DevicesWithChrome = DeviceTvmSoftwareInventory
    | where SoftwareName has "chrome"
    | distinct DeviceId;
DeviceInfo
| summarize arg_max(Timestamp, *) by DeviceId
| where isnotempty(DeviceId) and isnotempty(DeviceName) and OSPlatform !contains "Server" and OnboardingStatus == 'Onboarded'
| join kind=leftanti (DevicesWithChrome) on DeviceId
| project DeviceName, OSPlatform, OSVersion
| order by DeviceName asc
```

WUfB Reports

- Paljon tietoja kk/ominaisuus/ajuripäivityksistä
  - Asennustila
  - Ongelma
  - Delivery optimization:n tila
- Vaatii Log analytics workspace:n
  - Käyttöönotto: aka.ms/wufbreports







WUfB Reports KQL hakuja

```
UCUpdateAlert
| where AlertStatus == 'Active'
| summarize count() by Recommendation
| order by count_ desc
```

Results Chart

Recommendation
Make sure that the device is sufficiently active and connected to the internet so it can complete the update installation
Run "dism /online /cleanup-image /restorehealth" from a command prompt as an administrator. If the command fails reinstall Windows or contact support. If it succeeds try reinstalling the update. If the update won't install contact support.
This error is likely transient. If it persists, use the included information troubleshoot further or contact Microsoft support.
Retry the update. If that fails, restart the device and retry the update. If that fails, contact Update Compliance support.

```
UCUpdateAlert
| where UpdateCategory == 'WindowsQualityUpdate' and Recommendation has "/online /cleanup-image" and AlertStatus == 'Active' and isnotempty( DeviceName)
| project DeviceName, AlertSubtype, ClientSubstate, AlertStatus, TargetBuild, Recommendation
| order by DeviceName asc
| take 100
```

Results Chart

WUfB Reports

- Edut
  - Mielenkiintoista tietoa päivityksistä valmiissa raporteissa
  - Voidaan löytää ongelmista tietoa
  - KQL:n avulla saadaan omia raportteja tarvittaessa
- Puutteet
  - Vaatii oman käyttöönoton
  - Omien KQL-hakujen teko vaatii tietorakenteen opiskelua
  - Vaikeaa hyödyntää tietoa Intunessa

Yhteenveto

- Useita eri inventointitapoja
  - Jokaisessa jotain hyvää ja huonoa
  - Historiallisia syitä...
- Pitää tietää, mistä löytää mitäkin
- Inventaariotiedon hyödyntäminen jakeluissa hankalaa
  - Tee asia X kaikissa koneissa jossa on Y
  - Ensimmäisiä toimintoja on jo tullut (ryhmään lisäys)
  - Lisää tulossa

Kiitos!
