PowerShell script installer for Win32 apps

PowerShell-asennus skripti nyt osa sovelluksen meta-dataa!

Ei tarvitse luoda uutta .intunewin pakettia, jos haluaa muokata asennusskriptiä

PowerShell script installer for Win32 apps

When adding a Win32 app, you can upload a PowerShell script to serve as the installer instead of specifying a command line. Intune packages the script with the app content and runs it in the same context as the app installer, enabling richer setup workflows like prerequisite checks, configuration changes, and post-install actions. Installation results appear in the Intune admin center based on the script's return code.

App information | **Program** | Requirements | Detection rules | Review + save

Specify app Installation and Uninstallation settings, including whether to use a script or command line, t
behavior, and return codes.

Installer type	PowerShell script
Install script *	Select custom script
Uninstaller type	Command line
Uninstall command *	msiexec /x "{750632BA-2593-3862-A3AE-0C9B722EC4DB}"
Installation time required (mins)	60
Allow available uninstall	Yes / No
Install behavior	System / User

Install script

Script name *	Install Chrome
Script file	install-chrome.ps1
Script content	

```
# Start logging
Start-Transcript
"C:\Windows\Logs\Install_$($SoftwareName)_$($version)_
IntuneWin32App.log" -Append
Write-Host "Install $SoftwareName $version"

$Installer = "msiexec.exe"
```

Enforce script signature check	Yes / No
Run script as 32-bit process on 64-bit clients	Yes / No

Microsoft webinaari

- Eilen Juha Karppinen piti mielenkiintoisen esityksen aiheesta Microsoftin pilvipalvelut ja EU
