Kaikki vinkit Microsoft-sertifiointiin itseopiskeluun!

Pavel Mirochnitchenko, Jami Susijärvi

THANKS FOR THE SPONSORS!

Sisältö

- Miksi sertifioitua?
- Materiaalit itseopiskeluun & Practise Exams
 - Online koetilanne ja vaatimukset
 - Epäonnistumisesta selviäminen
- Renewal ja Skillsit

Pavel Mirochnitchenko

Jami Susijärvi

TIETOKESKUS

+23 muuta MS sertifikaattia

Miksi sertifioitua?

Asiantuntija (Jami)

- Paremmat mahdollisuudet CV:ssa
- YT-neuvottelut
- Uudet projektit
- Lisää liksaa tai bonuksia
- Isoja eroja miten yritykset tukee

Työantaja (Pavel)

- Microsoft kumppanuustaso
- Kilpailutus tilanne
- Microsoft tuetut projektit (Sponsorship)

Mutta oikeasti?

- Itsensä haastaminen
- Uuden oppiminen
- Ja sen todistaminen

Eteneminen (Pavel)

- Valitse oikea serkki
- **Varaa koeaika**
- Videot, practice-examit, hands-on lab, ms learning modulit
- Mene kokeeseen
- Fail -> uudelleen

Perusteet kuntoon (Jami)

- 700/1000 pistettä
- Eriarvoiset kysymykset
- Aikaa 100-120min (Fundamentals 45-60min)
- Kysymyksiä 40-60
- 2-3min aikaa / kysymys
- 126 € (Fundamentals 76 €)

Vanha vs. Uusi (Pavel)

On-prem

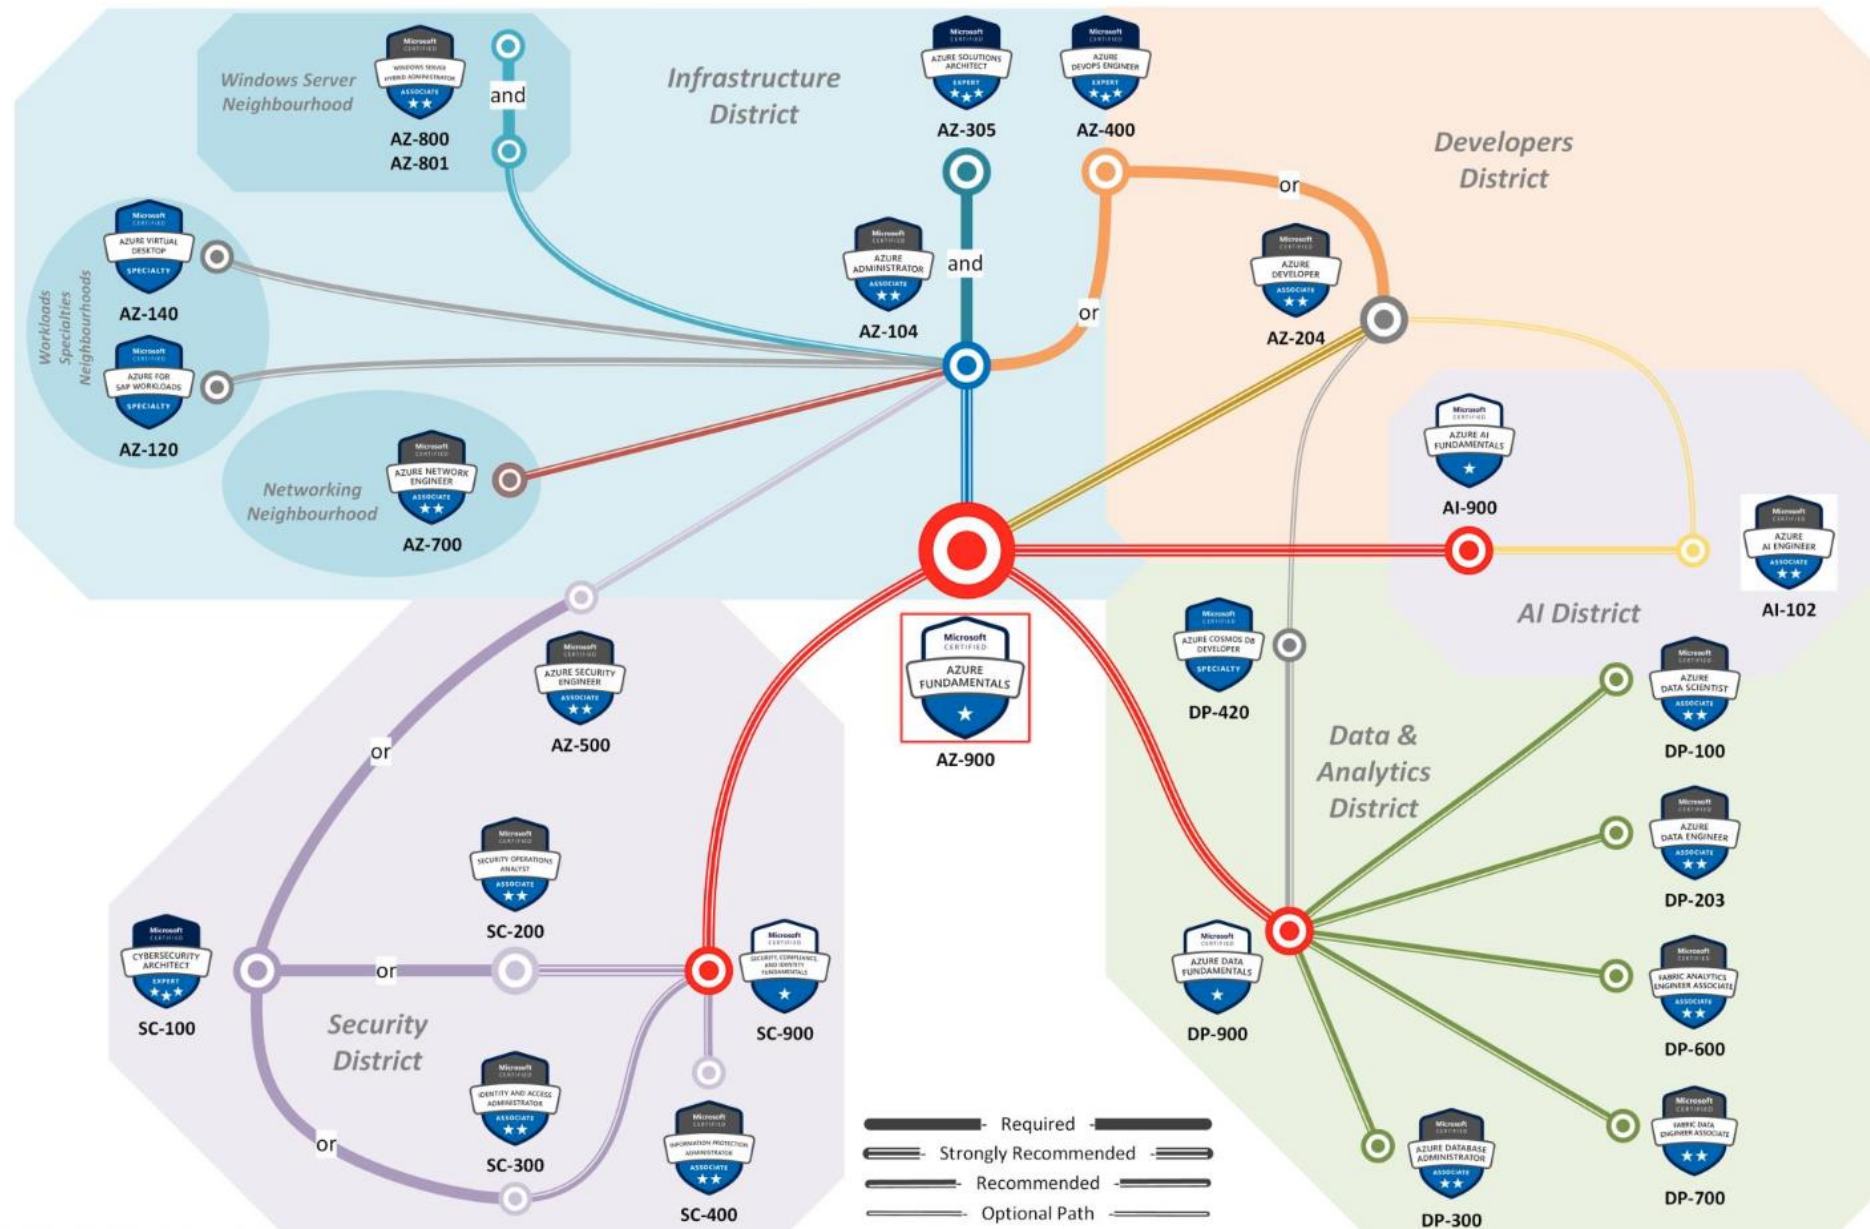

- 60-xxx, 70-xxx
- Tuotepohjainen, (esim. Windows Server, SCCM, Windows 10)
- MCSA, MCSE

Cloud

- MS-xxx, SC-xxx, AZ-xxx, AI-xxx
- Roolipohjainen
- Laajempi, esim. Intune kysymyksiä useissa eri kokeissa.
- Expert, Associate, Fundamentals, Speciality
- Uusinta 12kk välein (paitsi fundamentals)

Valitse oikea sertti (Azure)

Valitse oikea serti (M365)

Videolähteet (Pavel)

- Microsoft Partnerin kanssa Microsoft ESI
 - Pitkiä 2h videoita, joista 15h virallista materiaalia
- Youtube
 - Dean Cefola – AVD, Azure
 - Alex de Jong – M365, Copilot
 - John Savil – Azure
- Pluralsight
- MS Learn (meh)

Practise Exam 1 (Pavel)

- Tee ensimmäisenä sekä videoiden ja muun lukemisen jälkeen
- Korvaa kirjan lukemisen (lue selitteet aina!)
- Vältä brain-dump

Your development team creates an automated workflow. The workflow contains both legacy applications and newer cloud technologies.

You need to streamline the collaboration.

What should you do to make the collaboration between legacy apps and new technologies easier?

Choose the correct answer

☐ Build separate pipelines.

☒ Use Azure Logic Apps.

☐ Use containers.

^ Explanation

You should use Azure Logic Apps. Azure Logic Apps provides prebuilt connectors as managed APIs. These API's make collaboration between legacy apps and new technology easy.

You should not use containers. Containers are used to create virtual instances of an application. They would add an additional level of complexity.

You should not build a separate pipeline. This will keep legacy applications isolated from newer technologies.

You should not use Azure REST APIs. Azure REST APIs are service endpoints. They support HTTP operations (methods) that provide, create, retrieve, update, or delete access to the service's resources.

Online-koe tilaisuus (Pavel)

- Parempi valinnanvara aikojen suhteen
- Vain läppäri, virtajohto, hiiri, lasi-vettä
- Ei tauluja, ei näyttöjä, ei läpinäkyviä ikkunoita
- Full Admin oikeudet koneelle
- Tekee profiilikohtaiset Windows Firewall säännöt
- Älä tee firman koneella ;)
- Älä tee firman verkossa ;)

Vinkit kokeeseen (Jami)

- Vain 2min per kysymys
- Case Study – silmäile, älä lue kaikkea
- Merkkää epävarmat itsellesi että voit lopussa palata niihin
- Vastaa aina jokaiseen kysymykseen, vääristä ei rangaista
- Pääsy MS Learningiin (tutustu etukäteen erityisesti hakuun), hyödynnä vasta lopussa
- Mahdollisuus pausettaa ja käydä vessassa, et voi palata vanhoihin kysymyksiin enää.
- Varo eteenpäin-taaksepäin menoa
- Katso aikaa (jos stressaa saa piilotettua)

Epäonnistuminen (Pavel)

- Varaa uusi aika 1-2 viikon päähän
- Kertaa heikoimmat alueet

Retake Policy:

24h -> 2 viikkoa = 5 kertaa vuodessa max.

HUPS!!! (Pavel)

Renewal (Pavel)

- Voimassa vuoden
- 180 päivää aikaa uusia, aukeaa puoli vuotta ennen expiration (**MS ei muistuta enää**)
- Voi tehdä kerran 24 tunnin aikana (ekana yrityskertana voi yrittää 2 kertaa päivässä)
- 20-25 kysymystä
- n. 60% mentävä oikein
- Ei valvontaa, ei aikarajoitteita
- Vaikeutunut ajan saatossa, haastava jos ei tee päivätöikseen

APL-1002: Configure secure access to your workloads using Azure networking

Instructions 4 5

6 Open Virtual Machine in new window

NVDA (Screen Reader) Setup & Access (select to expand)

Welcome to the Configure secure access to your workloads using Azure networking Assessment Lab.

In this lab, you will be asked to perform several activities that can be found in a series of email messages. You will have 2 hours to complete these activities.

The actions you take while completing the assessment lab will be recorded for quality control purposes.

⚠ This assessment is intentionally designed to reflect real-world, problem-solving scenarios where all necessary information might not be explicitly provided. While we understand the desire for step-by-step instructions, offering such guidance would compromise the authenticity and evaluative purpose of this summative assessment. Your ability to navigate ambiguity, make
