## 22. What did you think was particularly good about the event?

12 Responses

1	anonymous	Oli kyllä saatu kovat esiintyjät kovilla esityksillä paikalle, huippua!
2	anonymous	Hyvä sijainti, hyvät tilat, mielenkiintoiset esitykset,
3	anonymous	Everything but overall the schedule was done good with enough breathing time in between to talk with other attendees or the presenters
4	anonymous	Event venue
5	anonymous	I gave five stars to each session I learned something or my brain started to think what I could do differently in my work environment. Only gave 4 starts to couple sessions.
6	anonymous	Speakers were very professional and I like it. The whole open mindset to share best practices are priceless.
7	anonymous	Good phasing. Enough breaks. Relaxed atmosphere. Good venue.
8	anonymous	Networking with other specialists. Great presentations and good food. Right next to the metro station, so the event venue was easily accessible.
9	anonymous	Intune tools presentation and certification notes
10	anonymous	Location was easy to find and commute to. Schedule was clear and pretty much stayed on time.
11	anonymous	Excellent speakers, interesting topics
12	anonymous	Themes were good and speakers were entertaining.

## 23. Where do you think there is room for improvement for the next time?

9 Responses

ID ↑	Name	Responses
1	anonymous	Arvontageneraattorin ja nimilistojen yhteensovittaminen ettei vahingossaakaan satu sama rivi listalta useaan kertaan.
2	anonymous	Ilta tapahtuma tieto oli aika epäselvää, lounastus olisi voinut olla organisoitu jotenkin
3	anonymous	I suspect 2-day event was too long for many attendees. I could only attend on first day, and I know many others who had same situation.
4	anonymous	I was confused about after event thing in Viikki. Sort of came out of nowhere, or at least I didn't know it was happening.
5	anonymous	Free beer isn't allowed I think so no need to improvement.
6	anonymous	Choose a theme and revolve around that? Understandably it's pretty much cloud only, but onprem still exists and other things besides microsoft also exist. Would be interesting to hear of other solutions and of other things related to workplace, for example remote control solutions, security solutions, etc.
7	anonymous	The sponsor area was a bit too small.
8	anonymous	I think everything went fine, there was some deep dives and some little lighter presentations. Good combo.
9	anonymous	registration process was a bit clumsy -

1	anonymous	Jatkakaa samaan malliin, alkaa olemaan jo maailmanluokan tekemistä.
2	anonymous	Keep up the good work
3	anonymous	Good stuff guys. Keep this up, I really think this is doing good for endpoint administrators.
4	anonymous	Thanks for the community!
5	anonymous	Moving to Discord was a huge improvement compared to Facebook.
6	anonymous	Lets continue good work, best as allways is new contacts and discussions.
